Will fill material be brought to site?				
If Yes, from where?				
How much (cubic yards)?				
Will soils be removed from site?				
If Yes, where will this be taken?				
How much (cubic yards)?				

All construction activities which involve earthwork may also involve the handling of contaminated soils. If you end the project with excess soil from the excavation work described above, contact the ADLC IICP contractor at 406-563-7476 for proper handling instructions.

I have read and understand the standards for street design and construction for ADLC set forth in res. 06-58 as they apply to the work described above and agree to abide by those standards. I certify that I have, in effect, the required liability insurance and bonding/surety, and that all information provided herein is true and correct. I further agree to warrant, for a period of one year, repairs to the public facilities disturbed in the exercise of this permit, and agree to make additional repairs if so directed by the County. I am also aware that areas within ADLC include many historic mining districts that may contain hazardous waste and that remedy has been placed in certain areas to protect human and environmental health. I agree to abide by the rules set forth by the Interim Institutional Controls Program (IICP) to protect remedy and to minimize hazardous waste exposure and I understand that I may be held liable if I do not comply with the IICP rules.

ONSENT FOR ACCESS TO RIGHT OF WAY (ROW) FOR THE PURPOSE OF ENVIRONMENTAL SAMPLING

Anaconda-Deer Lodge County’s (ADLC) Interim Institutional Controls Program requests your consent to collect soil samples within the project area. Please fill out the information below.

I, _____ (printed name), contractor performing work in the ROW located at _____, in Anaconda, Montana, give my consent for employees and/or representatives of ADLC to access the site anytime during the project for the purpose of collection of soil samples. **I understand that these actions are undertaken by EPA pursuant to its responsibilities under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. 9601 et seq (also known as Superfund).**

I understand that:

1. I am excavating within a Superfund area
2. I am responsible for maintaining the integrity of any remedy present and for minimizing hazardous waste exposure
3. I am responsible for contacting the Superfund Program Staff with any questions I may have before I dig.
