Building Permit Application
(Please Fill Out Entire Application)

ABSOLUTELY DO NOT BEGIN PROJECT UNTIL ALL PAPERWORK IS FINALIZED AND PHYSICAL PERMIT HAS BEEN OBTAINED

Informational Only

Please be advised for new residential construction, that an Administrative Development Permit (ADP), as well as a Septic and/or Well Permit and a Driveway Approach Permit (depending on each individual construction site) is required before a Building Permit Application can be approved. The Office of Environmental Health handles all well and septic permits, and they can be reached at (406) 563-4035. All other permit applications can be obtained in the Planning Office at (406) 563-4010.

The Building Permit and the Administrative Development Permit require a full set of plans from a Registered Design Professional or Engineer before a review of this application can take place. **The Building/Planning Department requires a minimum of two (2) weeks from the receipt of completed application and plans for review.**

Please be advised that construction must begin within six (6) months of Building Permit approval. Building Permits expire six (6) months from the date of being issued if construction has not been started. After construction begins, the construction should be completed within six (6) months, however extensions may be requested prior to expiration, not less than one (1) month prior. If an extension request is not received before the expiration date, the Building Permit will be null and void and the process will need to be restarted. Extensions may be requested due to weather conditions and/or financial difficulties.

If you have any further questions, please feel free to call the office at (406) 563-4010.

Note: Twenty-Four (24) hour notice is required for all inspections, including concrete
